Multifunction Control in an Attractive, Inconspicuous Device

LiftMaster's KPR2000 is a feature-rich Keypad and Proximity Card Reader Access Controller that is simple to install and looks great, making it an excellent choice for both Residential and Commercial applications.

A secure and vandal-resistant enclosure with a gray powder-coated finish creates an upscale and stylish appearance. Cool blue backlighting of the keys assures day or night visibility.

The KPR2000 supports a maximum of 2,000 users in multiple access configurations (Card Only, Card or 4 to 6 Digit PIN, or Card + PIN). Supports HID 26 and 30-bit Wiegand proximity card formats.

Install the KPR2000 on a LiftMaster® pedestal and pair it with a LiftMaster® gate or commercial door operator for a superior total entry control solution.
